Tech is a tool

- What business problems and opportunities can it address?
- How do we join the dots from tech to strategic business value?

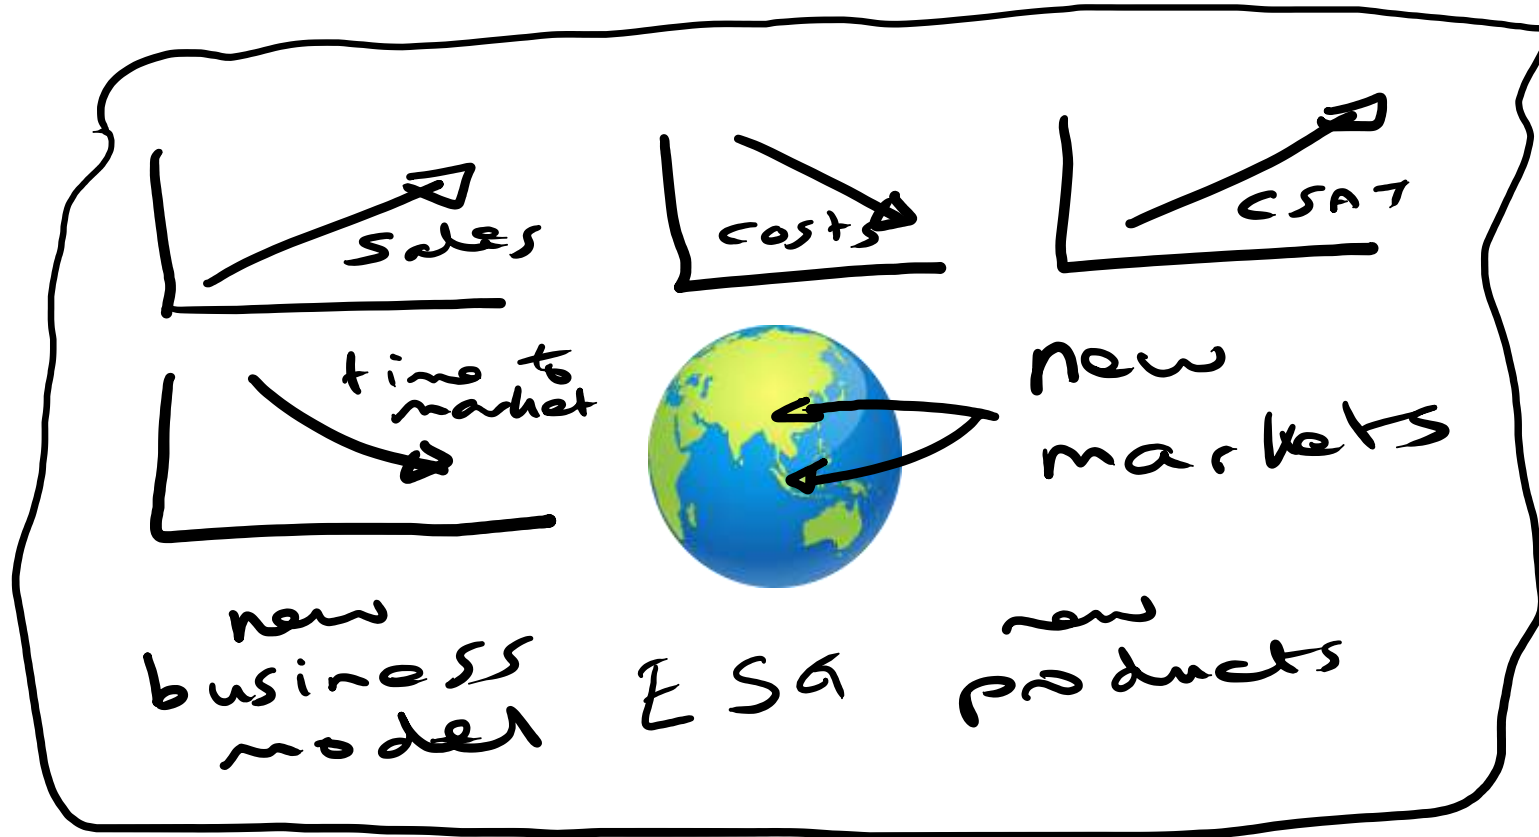

Culture

- Is your organisation designed for steady state or for continual change?
- Can you adopt & discard capabilities rapidly?
- Can your people experiment, learn and change ways of working?
- Is change collaborative or imposed?

A Sustainable Tech Stack

- How good are you at managing your current tech?
- Are you building tomorrow's business constraint?
- Are you effective at using real time integration now?

Measuring Success

- How will you impact the business?
- Long term
- Short term
- Tech lifecycle

The Tech

Usual Suspects

AI & ML

Cloud

IoT

Big Data Analytics

Gen AI

Cyber Security

Others

Blockchain

Quantum Computing

AR & VR

Digital Twins

Metaverse
